This is regarding your administrative review request of the decision by the Retailer Operations Division, to impose a 6-month disqualification against your client, owner of New Way Quick Stop. The Retailer Operations Division notified me that they have rescinded their original Determination Letter due to your timely submission of additional information. Therefore, I am closing my file on this matter as "moot".

If your client is advised by the Food and Nutrition Service of a new adverse action, your client will again be advised of its right to request an administrative review of the new adverse action.

Sincerely,

A handwritten signature in black ink that reads "Kim Dameron". The signature is fluid and cursive, with a long horizontal flourish extending to the right.
